PROFILE SUMMARY

I am a passionate Full-Stack Web Developer with expertise in the MERN stack and WordPress development. I specialize in building responsive, user-friendly websites and web applications, leveraging modern frameworks like React, Vue.js, and Express.js. With a strong foundation in database management systems such as MySQL, MongoDB, and PostgreSQL, I ensure seamless data integration and scalability. My experience includes custom frontend development using HTML, CSS, JavaScript, and popular libraries like Tailwind and Bootstrap. I am also proficient in version control systems like Git and GitHub, ensuring efficient collaboration and code management.
